AC 220V - 240V - 50Hz, IP44. Horns: E14 Max. 5W energy saving bulb, Body: E27
Max. 20W energy saving bulb. NB! ONLY LED OR ENERGY SAVING BULBS ALLOWED

ENG

CAUTION

1. Turn off the power before installation.
2. Do not let children touch electrical components or bulb. The temperature of the lamp body is high after the lamp has been turned on. Do not touch the lamp body to avoid scald.
3. The lamp must not be in touch with gas or caustic materials.
4. Luminaire should not be covered with any objects.
5. The lamp shall only be used with rated voltage and frequency.
6. Don't pull or hang the lamp by its powercable.
7. Don't use the lamp if the powercable is damaged. Only the manufacturer, his service agent or a similar qualified person may repair and replace damaged parts to avoid hazard.
8. Use correct screws and screwcups for installation. Since different walls demand different standards, these parts are not included.
9. Use gloves not to damage the surface of the lamp during installation.

D

ZU BEACHTEN

1. Vor der Installation bitte Stecker ziehen.
2. Halte Kinder von den elektrischen Komponenten der Lampe fern.
3. Vermeide Kontakt mit Gas und ätzenden Mitteln.
4. Die Lampe darf nicht zugedeckt werden.
5. Benutze die Lampe nur mit der angegebenen Voltzahl und Frequenz.
6. Hänge die Lampe niemals nur am Stromkabel auf.
7. Benutze die Lampe nicht im Falle eines defekten oder beschädigten Stromkabel. Um Unfällen vorzubeugen dürfen nur der Hersteller oder qualifizierte Personen Reparaturen vornehmen.
8. Verwende die richtigen Schrauben und Dübel beim der Montage der Lampe. Verschiedene Wände verlangen verschiedene Schrauben und Dübel. Aus diesem Grund liegen diese nicht bei.
9. Um die Oberfläche der Lampe nicht zu beschädigen empfehlen wir den Gebrauch von Handschuhen.

F

AVERTISSEMENT

1. Enlever la prise de courant avant l'installation.
2. Ne pas laisser les enfants toucher les composants électriques ou la source de lumière.
3. Ne pas laisser la lampe en contact avec du gaz ou des substances corrodantes.
4. Ne pas couvrir la source de lumière.
5. Utiliser la lampe avec le volt et la fréquence recommandés.
6. Ne pas tirer ou pendre la lampe dans le câble d'électricité.
7. Ne pas utiliser la lampe si le câble d'électricité est endommagé ou détruit.
8. Pour éviter les risques potentielles ou les dégâts, les réparations peuvent uniquement être effectuées par le producteur ou une d'autre personne qualifiée.
9. Porter des gants pour ne pas endommager la surface de la lampe pendant l'installation.

NO

ADVARSEL

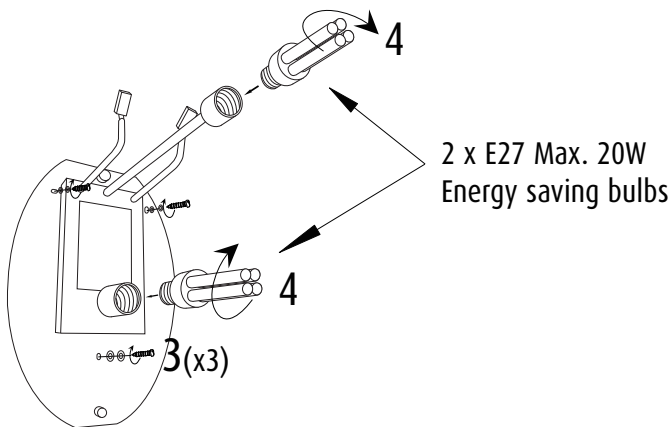

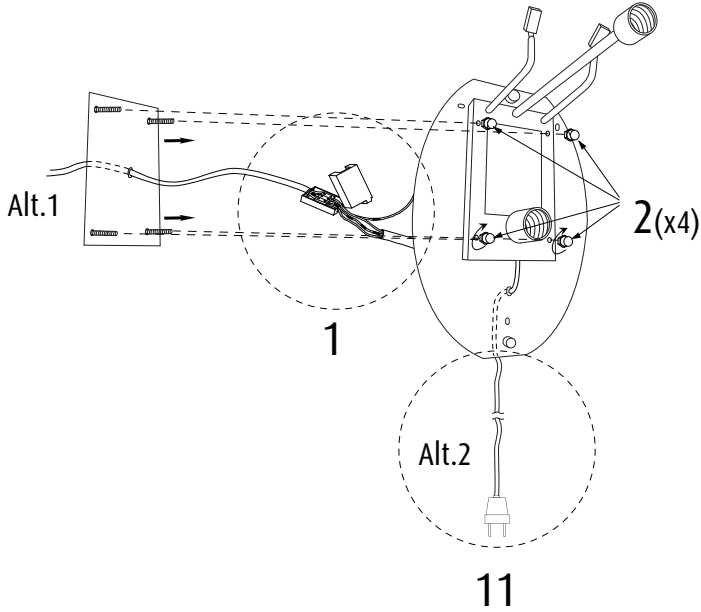

1. Koble fra strøm før installasjon.
2. Ikke la barn berøre elektriske komponenter eller lyskilde.
3. Lampen må ikke komme i kontakt med gass eller etsende stoffer.
4. Lyskildene må ikke tildekkes med løse gjenstander.
5. Benytt alltid lampen med anvist volt og frekvens.
6. Ikke dra eller heng lampen kun i strømkabelen.
7. Ikke bruk lampen hvis strømkabelen er skadet eller ødelagt. Kun produsent eller annen kvalifisert person kan foreta reparasjon på ødelagte deler for å unngå risiko eller skader.
8. Bruk riktige skruer og plugg til montering. Da ulike vegger krever ulike standarder, følger dette ikke med.
9. Bruk hansker ved montering for ikke å skade overflaten på lampen.

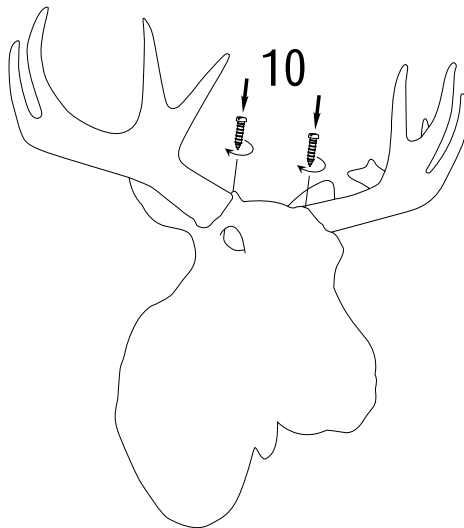

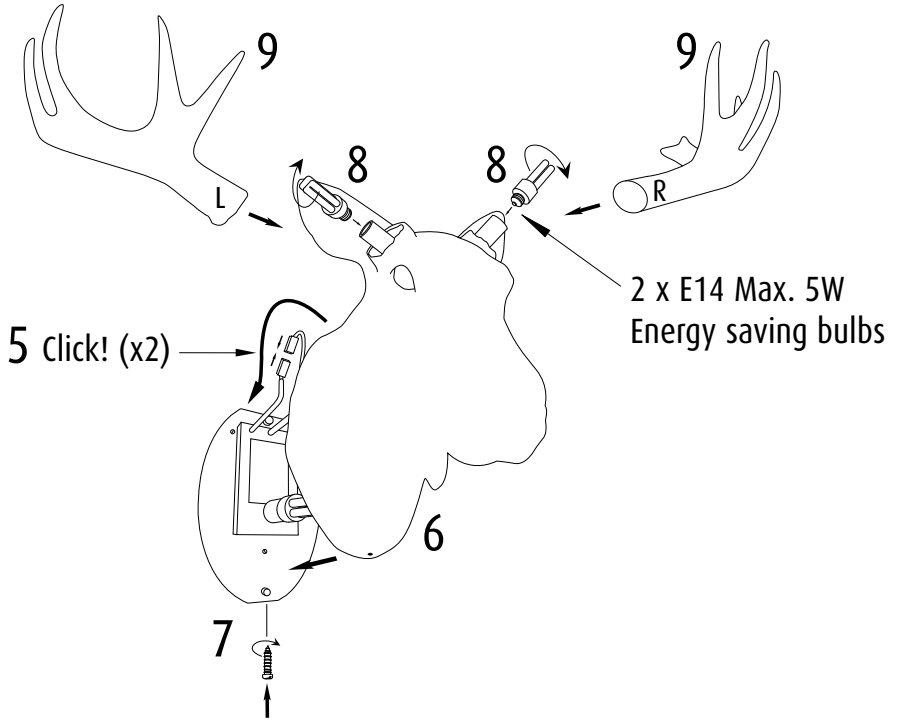

(ENG) Follow numbers in order for installation.

(D) Folge der Gebrauchsanweisung in der angegebenen Reihenfolge.

(F) Les chiffres montrent l'ordre recommandé pour monter la lampe.

(NO) Siffer viser rekkefølge for monterings.

Designers: Ove Rogne & Trond Svendgård

Trond Svendgård and Ove Rogne are both a part of the Northern Lighting design team and are two of the four founders of the brand. Trond, who is also a gourmet chef, has created a tasty moose cooking recipe especially for the Moo which is enclosed together with the lamp.

“Moo”

Moo is a full scale wall mounted Norwegian light moose head. Moo may be used both for indoor and outdoor decoration purposes. The figuratively shaped lamp body is made of poly-resin material, which gives a smooth and transparent flow of light. The bulbs placed inside the horns add an extra element of soft, sparkling and translucent light effect to the lamp.

The inspiration behind the Moo lamp was found in northern Norway, in the breathtaking scenery of Hamarøy, where both of the designers have summer houses. Here the moose is frequently seen passing close to the houses and even over the lawns. The designers hope Moo will stand out as a postmodern kitch trophy, making the viewer smile happily as they recognize this “king of the Norwegian forest”.

Northern Lighting

Mood as inspiration

Imagine a creative force led by original ideas, in a place where traditional design seems like a thing of the past.

Where contemporary artefacts find new friends, and award-winning classics are remade with state-of-the-art materials. Where all the lights are fun to use, and bridge the gap between everyday functionality and ideals of luxury and style.

Look no further than Northern Lighting, a heady hotspot of creative cool. Whether crafted into pendant lights, floor lamps, wall lights, table lamps, candle holders or tea lights, each product we make enhances the quality of ambient light. We create soft lighting that makes their surroundings seem soothing and relaxing, or use diffused glows to create moody tones.

Northern Lighting's products are created in collaboration with designers, tastemakers and innovators around the world. Established in Oslo in 2005, our designs are guided by Scandinavian simplicity and the ever-changing character of the Nordic light. As Northern Lighting's products illuminate interiors throughout the world, our commitment to quality, sustainability and design excellence travels with them.
