Monolith Candle Holder Series

Press release — Autumn 2022

It was Norwegian design duo Morten & Jonas' fascination with quarries, and the imprint left on the landscape from extracting the stone, that inspired their new Monolith Candle Holder.

Following the same simple contours as the cut slabs of rock, this series of spectacular candle holders come in three sizes that all fit neatly together, as well as a wall mounted option.

Available in four material options; black matt steel, aluminium, Lilac white marble and Verde Prato marble, each Monolith Candle Holder also has a top hem to safely contain any molten wax.

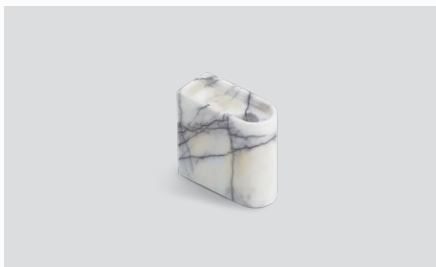

Enjoy the Monolith Candle Holder singularly, or group them together, to create your very own monument honouring the beauty of the natural landscape.

“We have always been fascinated with quarries. How where the stone is taken out it leaves a landscape in slabs, and then how the stone slab itself is then transformed into an object of human creativity.”

Norwegian designers Morten Skjærpe Knarrum and Jonas Norheim are known eponymously as Morten & Jonas. They established their studio in Bergen, Norway after receiving their master's degrees from the Bergen Academy of Art and Design. The designers' cutting-edge furniture and lighting designs are sparked by curiosity and imagination, but characterised by irreverence and wit.

Morten & Jonas' point of departure was their ability to bring social agendas into design, even enlisting the help of incarcerated men and women to manufacture one of their early designs for Northern. Since then, Morten & Jonas have produced a range of celebrated designs, won several awards and had their work exhibited internationally. In Northern's collection, they give full expression to their combined talents, designing multifunctional furniture and discreet lighting while fulfilling their role as Creative Directors for the brand.
