Cling Coffee Table

Press release — Autumn 2023

With its winning combination of classic craftsmanship and contemporary sociable style the Cling Coffee Table, from trained cabinet maker and designer Anton Björnsing, is the ideal addition to any modern interior.

Minimalistic in looks but multifunctional in purpose, this present-day take on a much-loved furniture favourite, can be used individually as well as combined with its sister coffee table to optimise space.

A well thought out design, the refined rounded top and contrasting edgy square base are both crafted from solid oak and oak veneer, coming in a smoked oak or light oiled oak finish. Available in two sizes, Cling coffee tables also come flat packed, giving them a lighter carbon footprint too.

“The main goal was to create a coffee table with a distinct expression, a product that pushes against the limits of convention while trying to find new possibilities in the design.”

Before establishing his own studio in 2013, Swedish designer and trained cabinet maker Anton Björnsing studied furniture craft and design at Stenebyskolan and Malmstens, as well as interior architecture at the Chelsea College of Art and Design in London.

Based in the historic town of Landskrona, over the last decade Anton has worked across interior design, product design and furniture design to develop a range of work that is based on a Scandinavian approach, but at the same time pushes against tradition to find new possibilities.

About

The Northern brand was born in the studios of Northern Lighting, where a team of creatives have been illuminating lives since 2005. The new lifestyle collection includes furniture, lighting and accessories. Inspired by the pale beauty and rough-cut contrasts of the North, the Oslo-based brand is Nordic in spirit, yet global in style.
